

# Finally a solution to help you reach your objectives!

## *In a few words*

**Objectiver** is a rigorous solution for managers, project leaders and analysts to reap the best value from their projects.

It gives them a global and detailed view of a system, company or project, thanks to a systematic identification of the links between:

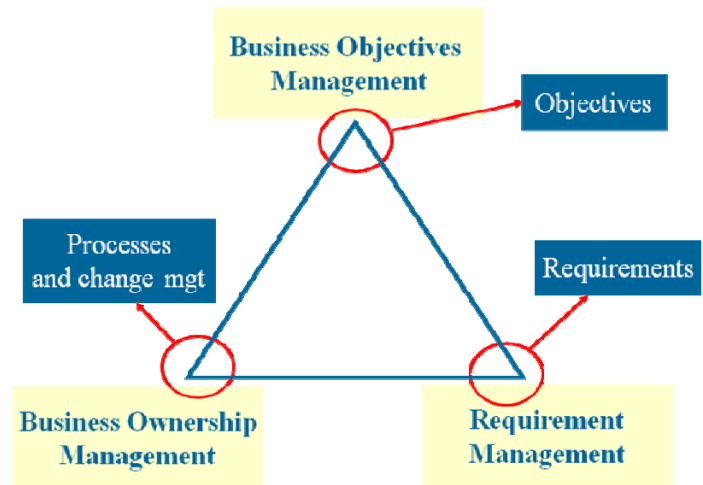

- ✓ the *goals* and objectives being pursued,
- ✓ the roles and *responsibilities* (of all involved people or automated systems)
- ✓ the *processes* and their priorities.

**Objectiver** gives you a unique opportunity to identify, visualize, and track every detail of your projects!

## *A reference tool...*

Easy to understand and use by anyone, packaged with a web generation tool that allows you to share your processes, goals ... with your employees,

**Objectiver** shall become quickly the new reference tool within your organization.

## *...applicable in many areas*

**Objectiver** has been successfully applied on many projects in diverse domains:

- ✓ **Requirements engineering**
- ✓ **RFP and RFQ management**
- ✓ **BPR and process modeling**
- ✓ **Business Planning**
- ✓ **Quality : CMM et ISO 9000**
- ✓ **Knowledge management**

You will quickly come to the conclusion that **Objectiver** can be used at every moment of your project lifecycle!
